

WELCOME 2011!

The GRCF wants to wish all our loyal supporters a very blessed 2011.

At the beginning of a new year, we at the Greater Rustenburg Community Foundation want to wish all of you everything of the best for 2011. We are certainly in high spirits for the year ahead, and are determined to keep on making a difference, as we have done for the past 10 years.

Already, we have a full schedule planned for the year ahead. We have planned ABCD workshops in another 10 clusters in the Bojanala District. The success of the ABCD methodology has already made a huge impact on our pilot clusters, and already we can see positive change in our communities. During the December holidays, the Department of Geography at UNISA, our technical partner, have visited some of these communities, and were even able to purchase some of their very own fresh produce.

New projects to be embarked on for this year will also include an Environmental project, focusing specifically on eradicating alien vegetation, and converting these waste materials into profitable and usable products.

As per our standard custom, our offices will be closed on 27 & 28 January for our annual strategic planning conference with the whole staff compliment. We will be back in the office on Monday 31 January though, and appreciate your understanding in this regard.

So, with 2011 already taking off with the speed of light, we will be sure to keep you abreast with all our dealings in the next 11 issues of this newsletter.

Christmas at My Home – During the December holidays, volunteers and staff members of the GRCF, together with Quantum Step Human Development, treated the children of My Home to a special Christmas. We would like to thank everybody who made a contribution to this wonderful family!

While on holiday.... we still love doing what we do

During December we did a site visit to the George Stegman Hospital. These premises have been donated to our LACAP program by the Bakgatla Tribe, as a halfway house for parolees.
